

Label check: skin, eyes or not for skin?

Name: _____

One row per product you find at home. Read the label, then tick one box. Lesson 01.2.

Not for skin, always: acrylic or craft paint, markers, craft glitter, any glue not sold for skin, "black henna", kohl.

Eye area only if the label allows it. Neon / fluorescent and glow-in-the-dark: never near the eyes.

No ingredient list, or not sold as a cosmetic? Then it stays off skin.

Must measure 10 cm. If not, print at 100% ("Actual size").
