

Glitter label check

Name: _____

One row per glitter, gel or gem glue you own. Lesson 06.1 (and 06.3 for glues).

Sold for skin: the pack or seller says cosmetic glitter, face and body, or makeup. No: craft glitter. Never on skin.

Ingredient list: no list means not for skin. Plastic glitter often says polyethylene terephthalate (PET) or polyester.

Eye warning: believe it. Beginners keep all glitter and gems off the eyelids and lash line anyway.

Patch test: inner arm, wear it as long as a design, then watch 24-48 hours (lesson 01.3).

Must measure 10 cm. If not, print at 100% ("Actual size").
